Forward looking statement

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Embracing Excellence

A message from Chairman and Managing Director

Dear Shareholders, I am proud to present to you the second Annual Report of your Company, Suumaya Corporation Limited (Formerly known as Rangoli Tradecomm Limited), for the year 2021-22, post Initial Public Offer in March 2021. Your management took the reins of the Company in the year 2018 and started its' operations in supply chain of polymers and textiles. It gradually increased its' products lines by adding chemical additives in the year 2020-21 and agro products in the year 2021-22. This is the second year of full operations of the Company since the present management took over.

This year has been a roller coaster ride for us at Suumaya. Despite of various turbulences, your Company has always strived to achieve highest degree of value for all its stakeholders. Various challenges and geopolitical issues, rise in fuel prices and the like, did not deter us from achieving our goals. Owing to Company's robust business model we embraced every opportunity and challenges that came by.

Our Business

Suumaya Corporation Limited has selected to position our role as an end to end supply chain enterprise.

We provide supply chain enterprise services to SME and MSME companies across India that makes it possible for them to be liberated of the challenges related to

competent supply chain management. We enable them to choose their desired quantity of products and provide them services at competitive rates which enables them to achieve economies of scale and compete in the market.

Over the period of past one year the role of the Company has extended beyond the mere commitment to supply products. We cater as one stop supply solution to corporates and enterprises and empowering customers to liberate their managerial bandwidth and allocate resources towards business, products and marketing development.

With the Make in India and Vocal for Local initiatives by the Government of India and policies related to ease of doing business in India, there is a huge boost in the manufacturing and trading sector. This allows supply chain players like us to explore different products and cater to the ever-growing demand in the business sector.

"As an opportunity-responsive organization, Suumaya Corporation intends to build on its supply chain by integrating deeper into principals (customers) and emerging as an extension of their businesses."

Our Strong Financials

The year has been extremely turbulent yet financially promising for Suumaya Corporation. Our agility enabled us to quickly respond to the changes in market conditions resulting a fruitful yield to add to a strong balance sheet.

When the economy saw a slowdown and a drop in demand owing to the uncertainties for the returning pandemic and the glooming war, Suumaya shifted its focus to the betterment of its employees and human relations. We lost some and gained more.

Within the year, Suumaya Corporation has witnessed exponential growth both in terms of lessons learned and values earned. We kicked back and rose up even after a bleak quarter. The company showcased immense determination and zeal to fight back all challenges with unmatched grit.

At Suumaya Corporation, we stood strong and went against all odds. On the back of our sharp focus on business sustenance, and our ability to sustain operations amidst the pandemic, we registered a top-line of ₹ 3,362.94/-crore in 2021-22 compared to

₹1,186.88/-crore in 2020-21. The Company registered a profit after tax of Rs. 0.29 crores despite of all odd increased expenses.

Our strong financials are a proof of our endeavor in aiming for success and the enthusiasm of our team here at Suumaya Corporation to do the best.

Our Growth Trajectory

Suumaya Corporation is not driven by the superficial concept of monetary growth. Our deep rooted ethics enables us to create values to every life we touch.

Whether it's the team, the shareholders or our vendors or trade partners, every step is a decision to improve lives, not just earn money. This automatically generates wealth for the Company in terms cashflow and an enriching human capital.

With the domestic supply chain space majorly cluttered by unorganised participants and the Indian supply chain market being almost twice less efficient than global standards, there is higher opportunity to optimise the logistics spend in the country. With technology and AI enabled software and government initiatives, this industry is set to see growth.

During the last decade, the strong growth in consumerism has fuelled the need for specialised logistics solution providers with pan-India distribution reach and ability to provide customised solutions in a cost-efficient manner. We always focus on this prime objective in an organised and efficient manner. Given our strong presence in fast-growing consumption-driven sectors, it will act as a catalyst towards attaining a positive growth curve.

This synergy-led business model is expected to be amongst the key growth drivers for the Company in the years to come.

The commencement of the new and improved period of Suumaya Corporation is defined particularly by the commitment to strive through the failures. The company is getting a completely modern structuring, in both strategic and visionary aspects.

Suumaya is driven to capitalize on every potential growth in the global and national economy through active participation and inspiring innovation.

Embracing Excellence

I firmly believe that the foundation of success is excellence. Excellence is characterised as the end result of striving for perfection. Effective leaders inspire their people to attain excellence, in addition to great performance. The success of an organisation as a whole is greatly influenced by this sense of aiming for perfection, both in one's own work and in the work of others.

Some look for quick solutions to boost productivity but it does not create a long-lasting transformation. It only has a temporary impact. We, at Suumaya Corporation, do not believe in a culture that provides temporary solution. Instead, we provide our stakeholders a way that is efficient to increase their value in order for the Company to grow.

A corporate culture of excellence is developed when you give your firm the resources it needs and the framework it needs to engage, focus, and empower the stakeholders.

The Company's recall as a responsive trade partner has helped increase existing customer wallet share on the one hand and address a larger number of customers on the other, catalyzing growth towards profitability and sustainability.

At Suumaya Corporation we not only achieve excellence but also feel and embrace it to continue achieving the same.

Our journey towards Embracing Excellence

The following factors enables your Company to achieve the growth and reach

Profitable growth: The Company reported significant revenue growth corresponded by a wise development of product portfolio that will lead to glittering growth in the years to come.

Relationship Capital: The Company has built its credibility on the basis of trust developed by its customers, vendors and other stakeholders validated by its financial performance.

Wide range: The Company offers a range of products (polymers, fabrics, agro, yarns,

manganese ore and bitumen) to customers at the right time at the right cost thus catering to various sectors

Governance commitment: The Company is an ethical player, responding with a sense of governance. Our governance principles does not extend to statutory requirements. They are in complete sync with the needs of its business, workplace, commitment to customer interests and addressing statutory obligations.

Our Mantra: The Company's respect has been derived from our mantra that revolves around our pursuit in search of excellence; this helped generate a growing revenue ticket size for every customer.

Asset lightness: The Company has adapted to the recent changes and has navigated its business model to be asset light and lean. This ability to adapting to changing demands has been your company's highest strength and we will continue to enhance and embark on this.

Indian Outlook

Amidst and post the pandemic, India has seen a major disruption in the supply chain. Suumaya Corporation aims to instil some certainty into the national supply chain with its robust network in PVC, Ferrous and Non-Ferrous metals and agro commodities.

While we're currently at a time where the inflation is reaching sky high levels, India is also witnessing a jump back in the domestic demand and consumption. The loosening up of mobility restrictions is aiding the demand. Suumaya Corporation is well-equipped to respond to this upcoming inflow of demand with a wide range of product lines and industries to utilize.

The current export market situation in India is at an interesting place. In terms of GDP % they did extraordinarily well post the pandemic era. But we might enter a dicey situation as trade partners witness a slowdown.

Suumaya Corporation has envisioned to work on this gap and let the Indian trade market achieve its true potential through an incredible, tech-powered logistics solution

for our trade partners. We pledge to make use of the global digitization wave to smoothen trade and improve fiscal accounts.

Story forward

Suumaya Corporation has a vision to expand horizontally and vertically, coupled with a well-rounded development. With the focus on the products that the Company deals with currently, it plans to expand its portfolio by adding new products and venturing into different business verticals that suits the best interest of the Company and its' stakeholders.

The next 5 years draw out a bright future with a pen of innovation. We're shifting our focus towards modernization and embracing technology. We recognize that the future is tech-driven. We aim to digitize even the most age-old businesses and revolutionize the sectors other corporations are afraid to step into. The idea is to use tech in places that are completely unfamiliar to the future.

At Suumaya Corporation, we are focused on strengthening our visibility and capability in the specialised area of supply chain enablement. We intend to provide world-class supply chain services, strengthening our business eco-system.

We are optimistic that our initiatives in this direction will enhance revenues and hence, value in the hands of all those associated with our company.

We are grateful to our stakeholders for ushering in trust, support and encouragement since the beginning of our journey. With transformation in our constitution of being a listed entity, we expect to receive the same faith and reliance from you as we move ahead to redefine the supply chain services sector in India.

Yours' truly,
Ushik Gala
Chairman and Managing Director

Stakeholders Engagement

Overview

Stakeholders value creation is of the utmost important for us at Suumaya Corporation Limited. A well balanced stakeholders value is one of the essentials for any corporate to grow.

Our growth journey has well indicated our endeavours to do the best for all our stakeholders. It is our stakeholders that enable us to achieve excellence.

The purpose of stakeholders engagement is to explain the impact of the Company on its stakeholders and vice versa. It comprises a comprehensive reporting framework that blends 'hard' and 'soft' initiatives; it highlights the 'how' related to value-creation over the 'what'.

The impact of the this Report extends beyond financial stakeholders; it enhances an understanding of how the various stakeholders- customers, suppliers, business partners, local communities, legislators, regulators and policy-makers - enhance organizational value. This format helps screen a company more comprehensively, addressing the needs of investors, analysts, media and opinion makers.

Management Discussion and Analysis Report

GLOBAL ECONOMIC REVIEW

The Global economy showed early signs of recovery in the start of FY 2021.

The World Economic Outlook update of January 2022, it was forecasted that the Global growth was expected to moderate from 5.9% in 2021 to 4.4 % in 2022—half a percentage point lower for 2022 than in the October World Economic Outlook (WEO), largely reflecting forecast markdowns in the two largest economies. Due to new COVID variants and the onset of Russia-Ukraine crisis, the global recovery decelerated and a rise in inflation was seen in the developed as well as developing nations.

A revised assumption removing the Build Back Better fiscal policy package from the baseline, earlier withdrawal of monetary accommodation, and continued supply shortages produced a downward 1.2 percentage-points revision for the United States.

In its World Economic Outlook (April edition), IMF said though a global recession in 2022 is ruled out with growth estimate of 3.2 per cent, the balance of risks is squarely to the downside, driven by a wide range of factors that could adversely affect global economic performance.

Elevated inflation is expected to persist for longer than envisioned with ongoing supply chain disruptions and high energy prices continuing in 2022. Assuming inflation expectations stay well anchored, inflation should gradually decrease as supply-demand imbalances wane in 2022 and monetary policy in major economies responds.

The emergence of new COVID-19 variants could prolong the pandemic and induce renewed economic disruptions. Moreover, supply chain disruptions, energy price volatility, and localized wage pressures mean uncertainty around inflation and policy paths is high. As advanced economies

lift policy rates, risks to financial stability and emerging market and developing economies' capital flows, currencies, and fiscal positions—especially with debt levels having increased significantly in the past two years—may emerge. Other global risks may crystallize as geopolitical tensions remain high, and the ongoing climate emergency means that the probability of major natural disasters remains elevated.

Global trade hit record high of \$28.5 trillion in 2021, but it is likely to be subdued in 2022 in the backdrop of the Russia-Ukraine war, as efforts to streamline the supply chains and diversify suppliers could affect global trade patterns. Governments and central banks across the world are mulling over policy response to curb the rise of inflation. According to the World Bank's latest report, global economic growth is expected to moderate from 5.5% in 2021 to 3.2% in 2022 due to the

impact of the Russia-Ukraine crisis and higher food as well as energy costs across the world.

INDIAN ECONOMIC REVIEW

The last two years were challenging for the Indian economy on account of repeated waves of Covid infection, supply-chain disruptions, volatile oil and commodity prices, rise in Rupee- Dollar Exchange rate and rising inflation. The Government of India's response was to build back short-medium term demand through significant increase in capital expenditure on infrastructure. Supply-side measures were implemented to prepare the economy for a sustained, long-term expansion. High frequency indicators showed positive signs, raising both business and consumer optimism. Factors such as rail and freight activity, passenger traffic, power consumption, e-way bills and Goods and Services Tax (GST) collections showed a rising trend thus showing an optimistic growth in the per capita consumption.

With the vaccination programme having covered approximately 60% of the eligible population, it helped in building the economic momentum with lesser infection rates, thus boosting the productivity towards re- building the economy that was decelerated due to COVID- 19.

The Indian economy was estimated to grow around 9% in FY23 as per the report published by the International Monetary Fund (IMF). However, due to certain risk factors like escalation of Russia- Ukraine conflict, rise in commodity prices, higher inflation and global growth slowdown, the IMF in July 2022, slashed India's estimated GDP rate for the FY 2022-23 to 7.4%.

Meanwhile, India's GDP grew at a slower pace at 4.1 per cent in the January-March quarter of the financial year 2021-2022, according to the data released by Ministry of Statistics & Programme Implementation (MoSPI) in May. The slow growth was mostly due to soaring prices and the subsequent hit to consumer spending and investments. Furthermore, for the full fiscal, the GDP was estimated to grow at 8.7 per cent in 2021-2022 as compared to a contraction of

6.6 per cent in 2020-21, the government data had added.

Going forward, the Government's thrust on capital expenditure and exports is expected to enhance production capacity and strengthen aggregate demand. The conducive financial conditions engendered by the RBI's policy actions are expected to provide stimulus to investment activities. Capacity utilization is rising, and the outlook on business and consumer confidence remains in optimistic territory, which should support investment as well as consumer demand. Overall, there is some loss of the momentum of near-term growth with global factors turning adverse. However, the domestic growth drivers are gradually improving.

GLOBAL SUPPLY CHAIN REVIEW

Today we live in a highly interconnected world economy that organizes millions of businesses operating across different regions or countries. Given smooth economic coordination is a pre-condition for the successful functioning of the global economy, supply chain management offers the most needed service to ensure a strong logistical network between a company and its suppliers to manufacture or produce, then to distribute goods to customers. As a commercial system of organizations, resources, information and people, the supply chain network forms a complex and dynamic supply and demand network between a multitude of economic agents. The expansion of international trade triggered the importance of supply chain management further. For instance, the global supply chain management market was worth roughly 16 billion U.S. dollars in 2020. Over the last decade, supply chain management software and procurement market expanded more than twice. These networks of supply chains form the so-called global value chains (GVCs), which is the prevailing method of interaction in international trade relations.

Global supply chain impact due to COVID-19 COVID- 19 had a huge impact on global supply chain. About 20 percent of logistics industry professionals reported that their supply chains were interrupted by the

COVID-19 pandemic in 2020. In addition, about 11 percent of respondents also reported that their orders were cancelled as a result of the pandemic.

Outlook

Despite the long-lasting coronavirus (COVID-19) pandemic, which hit global value chains immensely, supply chain management will remain and become a more integral part of a growing global economy in years to come. During the upcoming decade, the global supply chain management market is expected to more than double in size, while the supply chain management software market is expected to follow a similar tendency over the next couple of years. Although there is a possibility that the entire production mechanisms will change as a result of the fourth industrial revolution, it is still unsure to definitively tell how the supply chain management will be affected. As long as the overall industrial production and economic interaction across regions or countries will increase, so will follow the supply chain management market.

INDIAN SUPPLY CHAIN INDUSTRY REVIEW

Investment into India's supply chain infrastructure is gaining momentum.

The introduction of the Goods and Services Tax (GST), liberalizing foreign direct investment (FDI) rules, and increased government spending has helped spur growth in the sector.

India's aspiration to become a global manufacturing powerhouse and the government spotlight on 'Make in India' also compels nationwide supply chain reform, prompting several federal and state-based schemes and investment incentives.

Until recently, infrastructural woes had a crippling effect on the supply chain network in

India. Suppliers, manufacturers, and retailers had to factor in delays in the movement of goods between state borders due to complicated taxes and transport lines running over capacity, increasing overall costs.

The situation is further worsened by increasing financial burdens and declining consumer confidence. Since the supply chain sector has a direct or passive bearing on all other functioning sectors within the economy, even minor disruptions or failures in the supply chain can have a negative rippling effect throughout all parallels of the industry. In light of such uncertainties, supply chain stakeholders must identify the biggest challenges before them and create actionable strategies to overcome them.

As India braces itself to get past this downward trajectory, it becomes even more important to strengthen the country's supply chain infrastructure. For long, infrastructural constraints, high cost of raw materials, labor, and energy, poor risk management, incompetent professionals, and lack of adequate tech support has been some of the major challenges for the Indian supply chain industry.

However, thanks to the growing influx of capital (both domestic and foreign), the government's active efforts in improving the overall supply chain infrastructure, and increasing awareness among supply chain leaders of the importance of supply chain management, there's much to look forward to in the coming years.

The sustainability of companies in today's economic environment and evolving market is dependent on innovative and practical corporate strategy, as well as on supply chain management to a large extent.

Companies need to connect supply chain and logistics with IT to enable effective co-ordination among all components of the supply chain, from procurement and producing to delivering to the destination – the consumer, in order to meet growing consumer demands. Keeping a proper balance in the economy requires efficient supply chain management.

Opportunities

The Indian supply chain space is a booming market with immense headroom for growth in the foreseeable future on the back of the improving transport infrastructure across the country coupled with incremental adoption of technology and focus on process consistency.

Opportunities in the supply chain sector

- National Highway Projects: With the increasing spend of the government on road infrastructure across the country, the country is expected to come up with intermodal and multimodal transport systems, to ensure cost-effective and efficient road transports. Thus effectively connecting India through roads, rails and water.

- Increase in use of Technology: With a number of Companies coming up with supply chain management softwares and the ease of using these softwares will enable the supply chain players to adopt these emerging technologies such as artificial intelligence, machine learning and big data, among others, has been making the Indian supply chain sector increasingly efficient, transparent and cost-effective.

- Government boost: With the increasing investment by the government on the road, sea and rail infrastructure of the country, the supply chain sector in the country is expected to grow fast. The capital outlay for Ministry of Road Transport and Highways in Union Budget 2021-22 stood at ₹1,08,230 crore.

- Make in India & Local for Vocal: With the Make in India and Local for Vocal propaganda of Government of India, many new start-ups are coming up in the manufacturing sector. With the boost in manufacturing sector, supply chain industry will benefit to a great extent serving new generation industries.

- Dedicated freight corridors: This project involves construction of the Eastern and Western Dedicated Railway Freight Corridors (DFCs), having a cumulative length of over 3,000 km. It aims to reduce overall logistics cost by improving average speed of the rail freight trains, increasing the freight carried per trip and linking of ports for faster freight movement.

Threats

COVID- 19 uncertainties

Even though large number of eligible Indian population is vaccinated, businesses are always at a threat due to new COVID- 19 variants and global management of the same.

Changing Geo- Political relationships

Due to the uncertainties occurred by the Russia- Ukraine war, the world stands divided thus causing geo- political tensions. The Russia- Ukraine war has also led to a lot of economic disruptions across the world.

Changing Indian policies/ regulations

Keeping in mind the economic development and inflation, the Government needs to change the policies and regulations accordingly.

Competitive markets

The supply chain sector characterised by rise of a number of players in the industry could act as a major threat for Company's share in the market.

Rise in raw material prices

With inflation playing its part, the Company could end up being one of the parties affected due to rising raw material prices in the country.

SUUMAYA CORPORATION LIMITED'S SUPPLY CHAIN ENGINEERING

The Indian supply chain costs account for 14% of the GDP, compared to a global average of 8%, validating both the immediate need and the immense opportunity available for growth in the sector in the country.

Based on business analysis and demand and supply forecasts, company procures raw materials in bulk from importers and local suppliers. The procedure in the procurement of raw materials, is the identification of buyers of these raw material products, providing logistics and warehousing services to deliver products to the customers at their doorsteps, providing financial assistance and also finding sellers for their products.

The Company believes in long term trustworthy, satisfactory and sustainable relationships with customers by providing them end to end solutions to make their business grow.

BUSINESS STRATEGY

Our business strategy more or less is similar to last years with more impetus towards developing of AI based technology to fulfil our customers needs and bridge the demand supply gap.

To identify the customers: The Company follows a systematic method of identifying its customers to which they could cater their products.

Size of target market: We measure the size of the market we are in, making sure that our products are in a profitable zone.

Demand for products: We identify the demand for our products i.e. polymers, textiles and manganese ores based thorough market analysis.

Competition: An important step of our business process is to recognize our competition and come up with competitive prices.

Rental warehouses: Once the market research is done and the competition is recognized, the Company procures raw materials at competitive prices and stores them at its warehouses.

Delivery to customers: The Company ensures timely delivery of its products to the customers, which consists mainly of MSMEs and SMEs.

The Company aims at enabling its customers achieve economies of scale by providing supply chain services at competitive prices. In our second year of operations, the Company achieved a topline of income from operations of Rs. 3,362.94/- crores and PAT of Rs.0.29/-Lakhs and have emerged as one of the key players in the industry in FY 2021-22. The Company believes in creating value for its customers in SME and MSME sector and help them grow. In a continuous effort that the Company takes to improvise itself by adopting new measures in running the business.

The company's mantra of "Embracing Excellence" can only be achieved with the support and growth of its consumers and stakeholders.

Thus enduring the adoption of latest technology coupled with enduring relationships with our supply chain partners, we strive to eliminate the middlemen, and offer superior price value proposition to our customers. This not only enables us to build a stronger clientele and generate repeat orders, but also ensures better margins.

Product overview

During the year under review, the Company engaged in supply chain of polymers, agro, non-ferrous metals, and textile yarns through its comprehensive solutions and robust supply process.

Products	Industries associated	Economic Overview
Polymers PVC, HDPE, LDPE, LLDPE, PP, Mettallocene	Agriculture, Automobile, Real estate, Packaging.	<p>In a bid to increase the domestic supply of polymers, Indian corporates have lined up a Rs 100,213 crore investment to create 10 million tonnes of additional petrochemical production capacity in the next four-five years. The Government of India also has announced investments in the segment.</p> <p>All these expansion plans are in various stages of progression and are set to commence commercial production in the next four-five years.</p> <p>In the last few months, India's PVC import, for example, from China has jumped manifold, despite being the imported PVC carbide-based. (Source: https://www.polymerupdate.com/)</p> <p>The country's production volume of polymers has doubled from 7.5 million metric tonnes in FY2013 to 12.4 million metric tonnes in FY2020.</p> <p>The consumption pattern together with large investment will boost the Polymer sector thus creating opportunities in the Supply Chain segment to bridge the gap between the demand and supply of the product.</p>

Products	Industries associated	Economic Overview
<p>Agro Agro products like wheat, dal and rice</p>	<p>Food</p>	<p>India is the largest producer of spices, pulses, milk, tea, cashew and jute, and the second-largest producer of wheat, rice, fruits and vegetables, sugarcane, cotton and oilseeds. India has the second-largest arable land resources in the world. With 20 agri-climatic regions, all 15 major climates in the world exist in India. The country also possesses 46 of the 60 soil types in the world.</p> <p>Agriculture is the primary source of livelihood for approximately 54.6% of the population in India. In 2020-21, food grain production reached a record of 303.34 million tonnes. As per the Union Budget 2021-22, Rs. 1.33 lakh crore was allocated to the Ministry of Agriculture.</p> <p>The agri-input sector is on a growth trajectory, owing to normal monsoon for two consecutive years. Despite concerns and challenges rose by the pandemic, the government's support to farmers through higher procurement at Minimum Support Prices further helped in propelling demand for agri-inputs. In FY 2023, domestic tailwinds from strong liquidity among farmers and a normal monsoon will be the drivers in sustaining double-digit industry growth.</p>
<p>Textiles</p>	<p>Yarns, fabrics, threads</p>	<p>India's textiles industry has around 4.5 crore employed workers including 35.22 lakh handloom workers across the country.</p> <p>India is the world's largest producer of cotton. Estimated production stood at 362.18 lakh bales during cotton season 2021-22. Domestic consumption for the 2021-22 cotton season is estimated to be at 338 lakh bales.</p> <p>Production of fibre in India reached 2.40 MT in FY21 (till January 2021), while for yarn, the production stood at 4,762 million kgs during same period.</p> <p>The Indian textile and apparel industry is expected to grow at 10% CAGR from 2019-20 to reach US\$ 190 billion by 2025-26.</p> <p>With a lot of initiatives by the Government in the textile sector, the role of supply chain managers will significantly increase right from supply of yarns to supply of finished products.</p> <p>(Source:ibef.com)</p>
<p>Manganese ores & Bitumen</p>	<p>Iron, steel, agriculture, aluminium alloys</p>	<p>The volume of manganese ore production in India amounted to around 2.83 million metric tons in financial year 2019. This figure is estimated to decrease to some 2.37 million metric tons by financial year 2022. More than 90 minerals were being produced across the south Asian country. In 2021, around 1.3 thousand mines reported mineral production.</p> <p>Mineral industry in India</p> <p>Automotive production and infrastructure development were the key drivers of the mineral industry in India. In 2019, the production value of minerals across the country stood at around 9.5 billion U.S. dollars. That year, the Wholesale Price Index of metallic minerals was 123. This meant an increase of about 23 percent from the base year of 2012. The index of mineral production also had an increase of three percent in February 2019 compared to the previous year.</p>

Products	Industries associated	Economic Overview
		<p>COVID-19 impact on mining in India</p> <p>In March 2020, processed minerals including coal and mica recorded a drop of over 30 percent in exports compared to the same month in the previous year due to the coronavirus (COVID-19) lockdown. The country witnessed the outbreak of the virus in late January that year. With the ongoing restrictions, India's economy had already estimated significant disruptions across various sectors.</p> <p>(Source:Statista)</p>
<p>Chemical Additives Bitumen</p>	<p>Road construction, roofing, waterproofing, and other applications</p>	<p>The India bitumen market was valued at \$2.8 billion in 2018, and is projected to reach \$3.6 billion by 2026, growing at a CAGR of 2.8% from 2019 to 2026.</p> <p>The growth of India bitumen market is majorly driven by increase in road and building construction activities. Construction of various national highways, expressways, and airport runways boosts the demand for bitumen across the country. Bitumen is processed into asphalt for road construction. In addition, rise in investments by the government for the development of national highways and expressways, which include projects relating two-laning of highways, the National Highways Development Project, six-laning of crowded stretches of the Golden Quadrilateral, a special program for the development of road connectivity in naxal affected areas, development of Vijayawada-Ranchi road, and for providing last mile connectivity, is anticipated to drive the growth of the market. Furthermore, bitumen is widely used in the construction industry for roofs, owing to its physical properties such as adhesion, resistance to water, hardness, ductility, and higher softening point. Therefore, growth in the construction industry due to growth in population across the cities and demand for new houses led to increase in demand for bitumen across the country. In addition, government initiatives such as Pradhan Mantri Awas Yojana (PMAY) that includes construction of houses for poor people living in both rural and urban areas is likely to increase the demand for bitumen; thereby, driving the growth of the India bitumen market.</p> <p>(Source: www.alliedmarketresearch.com)</p>

VOTING THROUGH ELECTRONIC MEANS AND ATTENDING THE AGM THROUGH OAVM/VC

1. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.

2. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the herein. The facility of participation at the AGM through VC/OAVM will be made available to atleast 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.

(I) THE INTRUCTIONS FOR MEMBERS FOR REMOTE E-VOTING AND E-VOTING DURING AGM AND JOINING MEETING THROUGH VC/OAVM ARE AS UNDER:

(i) The voting period begins on September 25, 2022, at 9.00 a.m. IST and ends on September 27, 2022, at 5.00 p.m. IST. During this period Members of the Company, as on the cut-off date i.e., September 22, 2022, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

(iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/-CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities

and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

(iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in DEMAT mode are allowed to vote through their DEMAT account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email id in their demat accounts in order to access e-Voting facility.

The Board of Directors of the Company may not declare or recommend dividend for a particular period if it is of the view that it would be prudent to conserve capital for the then ongoing or planned business expansion or other factors which may be considered by the Board.

PARAMETERS TO BE CONSIDERED BEFORE RECOMMENDING DIVIDEND

The Board of Directors of the Company shall consider the following financial / internal parameters while declaring or recommending dividend to shareholders:

- Profits earned during the financial year
- Cashflow Position of the Company
- Retained Earnings
- Earnings outlook for next three to five years
- Expected future capital / liquidity requirements
- Any other relevant factors and material events

The Board of Directors of the Company shall consider the following external parameters while declaring or recommending dividend to shareholders:

- Macro- economic environment
- Market conditions and consumer trends
- Changes in regulatory requirements including taxation and tax on dividend
- Industry Outlook

- Inflation Rate
- Shareholder expectations

UTILISATION OF RETAINED EARNINGS

The retained earnings of the Company may be used in any of the following ways:

- i. Capital expenditure for working capital,
- ii. Organic and/ or inorganic growth,
- iii. Investment in new business(es) and/or additional investment in existing business(es),
- iv. Declaration of dividend,
- v. Capitalisation of shares,
- vi. Buy back of shares,
- vii. General corporate purposes, including contingencies,
- viii. Correcting the capital structure,
- ix. Any other permitted usage as per the Companies Act, 2013.

PARAMETERS THAT SHALL BE ADOPTED WITH REGARD TO VARIOUS CLASSES OF SHARES

The Company has issued only one class of shares viz. equity shares. Parameters for dividend payments in respect of any other class of shares will be as per the respective terms of issue and in accordance with the applicable regulations and will be determined, if and when the Company decides to issue other classes of shares.

WAIVER / FORGO OF RIGHT TO RECEIVE DIVIDEND:

1. The registered shareholders of the Company can waive/forgo their right to dividend entitlement whether completely or partially on all shares or specified number of shares, whether permanently or for a specific term or for specific dividend entitlement by communicating in writing to the Company in the form prescribed by the Company.
2. Dividend waivers may be exercised by the shareholders in order to be remunerated via large dividends in successive years or the waived dividends can be utilized in day-to-day affairs of the company for the ultimate benefit of the shareholders.
3. In case of joint holders holding the Equity Shares of the Company, all the joint holders are required to intimate to the Company in the prescribed form, their decision of waiving/forgoing their right to receive the dividend from the Company or for terminating the waiver exercised earlier.
4. The Shareholder, who wishes to waive/forgo the right to receive the dividend for any year shall send his irrevocable instruction waiving/forgoing dividend so as to reach the Company before the date fixed for the payment of such dividend. Under no circumstances, any instruction received for waiver/forgoing of the right to receive the dividend for any year after the Date fixed for the payment of such dividend for that year shall be given effect to.
5. The instruction once given by a Shareholder intimating his waiver/forgoing of the right to receive the dividend for any year for interim, final or both shall be irrevocable and cannot be withdrawn

for that particular year for such waived/forgone the right to receive the dividend. But in case, the relevant Shares are sold by the same Shareholder before the Record Date/Book Closure Date fixed for the payment of such dividend, the instruction once exercised by such earlier Shareholder intimating his waiver/forgoing the right to receive dividend will be invalid for the next succeeding Shareholder(s) unless such next succeeding Shareholder(s) intimates separately in the prescribed form, about his waiving/forgoing of the right to receive the dividend for the particular year.

6. The instruction by a Shareholder to the Company for waiving/ forgoing the right to receive dividend for any year is purely voluntary on the part of the Shareholder. There is a no interference with a Shareholder's Right to receive the dividend, if he does not wish to waive/forgo his right to receive the dividend. No action is required on the part of Shareholder who wishes to receive dividends as usual. Such Shareholder will automatically receive dividend as and when declared.

7. The Shareholder who wish to waive/forgo their right to receive the dividend for any year can inform the Company in the prescribed form only after the beginning of the relevant financial year for which the right to receive the dividend is being waived/forgone by him.

8. The Company would be required to take necessary action for processing the dividend waiver requests by intimating to the Registrar and Transfer Agents (RTA) and remitting the waived amount from the Dividend account maintained with the Bank into Company's Account.

9. The decision of the Board of Directors of the Company or such person(s) as may be authorised by Board of Directors of the Company shall be final and binding on the concerned Shareholders on issues arising out of the interpretation and/or implementation of these Rules.

MODIFICATION OF THE POLICY

The Board is authorised to change/amend this policy from time to time at its sole discretion and/or in pursuance of any amendments made in the Companies Act, 2013, the Regulations, etc.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2022

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Suumaya Corporation Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Suumaya Corporation Limited (formerly "Rangoli Tradecomm Limited" and "Rangoli Tradecomm Private Limited") (hereinafter called "the Company") for the financial year ended March 31, 2022 ["period under review"]. The secretarial audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conduct/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the period under review, has complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the period under review, according to the provisions of applicable law provided hereunder:

1. The Companies Act, 2013 ('the Act') and the rules made thereunder including any re-enactment thereof;
2. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
3. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
4. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'), to the extent applicable:
 - a. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations');
 - b. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - c. The Securities and Exchange Board of India (Prohibition of Insider

Trading) Regulations, 2015;

d. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ('ICDR Regulations');

e. Securities and Exchange Board of India (Depositories & Participants) Regulations, 2018; and

f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Act and dealing with client.

5. Specific laws applicable to the industry to which the Company belongs, as identified and compliance whereof as confirmed by the management, that is to say: No specific law is applicable to the Company.

We have also examined compliance with the applicable clauses of the Secretarial Standard 1 and 2 issued by the Institute of Company Secretaries of India.

We report that during the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above. Kindly refer the notes below on certain matters of emphasis:

Note 1: Proviso to Regulation 295(1) of the ICDR Regulations: Where the issuer is required to seek shareholders' approval for issue of bonus shares, such issue should be implemented within 2 months from the date of the board meeting in which the bonus issue was approved. The board of directors of the Company, in its meeting held on September 23, 2021, approved the issue of bonus shares in the ratio of 2:1 and such shares got listed on the BSE w.e.f. November 25, 2021. The bonus issue was not implemented within the prescribed timeline of 2 months as specified under proviso to Sec. 295(1) of ICDR Regulations and therefore, BSE imposed a penalty of Rs. 60,000 which has been paid by the Company.

Note 2: The Company had a prescribed CSR obligation of Rs. 49 lakhs for the period under review. There has been no spending by the Company pursuant to the afore-mentioned obligation. The said amount of Rs. 49 lakhs, which has remained unspent will be transferred to the Fund specified in Schedule VII of the Act within 6 months from the end of the financial year i.e., on or before September 30, 2022.

Note 3: Reg. 29 of Listing Regulations requires a listed entity to give prior intimation to the stock exchange of the meeting of the Board of Directors in which the proposal for declaration/ recommendation of dividend is due to be considered. Such intimation is to be given atleast 2 working days in advance (excluding the date of intimation and the date of meeting). The Board of Directors of the Company considered recommendation of final dividend in their meeting held on May 30, 2021, however, the prior intimation was given on May 27, 2021. Similarly, the Board of Directors considered declaration of interim dividend in their meeting held on August 13, 2021, but the prior intimation was given on August 12, 2021. We have been given to understand that the Company could not submit on account of

technical error on the stock exchanges' portal and accordingly, the Company has not received any communication from BSE for delayed reporting till the date of this report.

Note 4: Reg. 42 of Listing Regulations requires a listed entity to intimate the record date for declaration of dividend to the stock exchange. The notice is to be given at least 7 working days in advance (excluding the date of intimation and the record date). The Company for the purpose of interim dividend, fixed August 24, 2021 as the record date, however, the notice was given on August 13, 2021. Thereafter, on August 17, 2021 the Company revised the record date to August 25, 2021. However, the requirement of 7 clear working days was not met in both cases. We have been given to understand that the Company could not submit on account of technical error on the stock exchanges' portal and accordingly, the Company has not received any communication from BSE for delayed reporting till the date of this report.

Recommendations as a matter of best practice:

In the course of our audit, we have made certain recommendations for good corporate practices to the compliance team, for its necessary consideration and implementation by the Company.

We further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review, were carried out in compliance with the provisions of the Act and other applicable laws.

Adequate notice is given to all directors to hold the Board and Committee meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All the decisions were unanimous and there was no instance of dissent in the Board and/or Committee meetings.

We further report that there are adequate systems and processes in the Company, which commensurate with its size and operations to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the period under review, the Company has not undertaken any specific events/ actions that can have a major bearing on the Company's compliance responsibility in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc., except as follows:

1. Alteration in the Objects Clause of Memorandum of Association ('MOA') of the Company:

The Company passed a special resolution through postal ballot on August 7, 2021 to amend the main objects clause of its MOA by

substituting the erstwhile clause 1 with new clauses 1 to 9 in order to expand the business operations by undertaking activities in new sectors. The Company received certificate of registration of the special resolution confirming alteration of objects clause in terms of Section 13 (9) of the Act on September 01, 2021 from the Registrar of Companies.

2. Change in the Name of the Company and consequent amendment in the MOA and Articles of Association ('AOA') of the Company:

The Company passed a special resolution through postal ballot on August 7, 2021 to change its name from 'Rangoli Tradecomm Limited' to 'Suumaya Corporation Limited' which consequently resulted in the amendment of MOA and AOA of the Company. The Company received Certificate of Incorporation pursuant to change of name on September 06, 2021 from the Registrar of Companies.

3. Shifting of Registered Office of the Company from one State to another:

The Company passed a special resolution through postal ballot on August 7, 2021 to shift its Registered Office from the state of West Bengal to the state of Maharashtra, which was subject to the approval of Regional Director, Eastern Region. However, the application for shifting the registered office as was made by the Company vide eform INC-23, got rejected by the Regional Director on October 30, 2021.

4. Increase in the Authorised Share Capital of the Company and consequential amendment to the MOA of the Company:

The Company passed an ordinary resolution through postal ballot on November 2, 2021, to increase its Authorised Share Capital from Rs. 12,00,00,000 (Rupees Twelve crore only) divided into 1,20,00,000 (One crore Twenty lakh only) equity shares of Rs. 10 each to 25,00,00,000 (Rupees Twenty-Five crore) divided into 2,50,00,000 (Two crore and Fifty lakh) equity shares of Rs. 10 each.

5. Issue of Bonus Shares:

The Company passed a special resolution through postal ballot on November 2, 2021, to issue bonus shares of Rs. 10 each in the proportion of 2:1 i.e., 2 (Two) equity share for every 1 (One) existing equity share held by the members, credited as fully paid-up shares to the holders of the existing equity shares of the Company. The Board allotted 1,64,82,016 bonus shares on 20 November 2021 to the members whose name appeared in the register of members/ list of beneficial owners as on November 19, 2021 being the record date fixed for this purpose. Consequently, the Company's paid-up share capital stands increased to Rs. 24,72,30,240 (Rupees Twenty-Four crore Seventy-Two lakh Thirty thousand Two hundred Forty only) comprising of 2,47,23,024 (Two crore Forty-Seven lakh Twenty-Three thousand Twenty-Four only) equity shares of face value of Rs. 10 each.

6. Assignment of receivables and payables

During the period under review, the Company entered into an assignment arrangement with a financial institution (Assignee) for assignment of receivables and payables. Under the said

arrangement, the Assignee does not have any recourse on the Company for the amount of receivables and payables assigned. The gross amount of receivables and payables assigned to the Assignee is INR 2,490.09 crores and INR 2,670.06 crores respectively. The transaction was considered by the audit committee and the Board at the meetings held on November 13, 2021 and May 17, 2022 respectively.

Independent Auditor's Report

To the Members of Suumaya Corporation Limited (Formerly Known as Rangoli Tradecomm Limited)

Report on the Audit of the Financial Statements Opinion

We have audited the accompanying financial statements of Suumaya Corporation Limited ("the Company"), which comprise the Balance sheet as at March 31 2022, the Statement of Profit and Loss, the Cash Flow Statement for the period then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit, its cash flows for the period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue Recognition

Key audit matter	How the matter was addressed in our audit

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement therein, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and cash flows of the company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give

a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Charged with Governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

"ANNEXURE 2"

TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF SUUMAYA CORPORATION LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Suumaya Corporation Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient

and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A Company's internal financial control over financial reporting with reference to these financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these financial statements and such internal financial controls over financial reporting with reference to these financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Suumaya Corporation Limited

(formerly known as Rangoli Tradecomm Limited)

Notes to the financial statements for the year ended 31 March 2022

1. Corporate information:

Suumaya Corporation Limited (formerly known as Rangoli Tradecomm Limited) ('the Company') is a public limited company domiciled in India and is listed on the Bombay Stock Exchange (BSE) SME Platform w.e.f. 22 March 2021. The registered office of the Company is at Kolkata.

Incorporated in 2009, the Company is engaged in the trading of wide range of polymer, agri and textile commodities.

2. Significant accounting policies:

2.1 Basis of Preparation

The financial statements of the Company have been prepared and presented under the historical cost convention, on the accrual basis of accounting in accordance with generally accepted accounting principles in India, including the Accounting Standards specified under section 133 of the Companies Act, 2013 ('the Act') read with rule 7 of the Companies (Accounting) Rules, 2014 read with the Companies (Accounting Standards) Amendment Rules, 2016 and other pronouncements of the Institute of Chartered Accountants of India and the relevant provisions of the Act.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

These financial statements are presented in India Rupees unless otherwise stated.

The financial statements of the Company for the year were approved and adopted by Board of Directors of the Company in its meeting held on 30 May 2022.

2.2 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles ('GAAP') requires the management to make judgments estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Management believes that the estimates made in the preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

2.3 Current / non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- expected to be realised or intended to be sold or consumed in normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realised within twelve months after the reporting period; or

- cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

2.4 Operating cycle

All assets have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with the Schedule III to the Act.

Based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Company has ascertained twelve months as its operating cycle.

2.5 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sale of Goods

Revenue is recognized when the significant risks and rewards of ownership of the goods have passed to the customer which is at the point of dispatch of goods to the customers and is stated after deduction of any trade discounts, volume discounts and any taxes or duties collected on behalf of the Government such as goods and services tax, etc.

Interest income

Interest income is recognized on a time proportion basis, taking into account the amount outstanding and the rate applicable.

2.6 Property, plant and equipment:

Tangible assets

Tangible assets are stated at cost of acquisition less accumulated depreciation and impairment loss, if any. Cost of acquisition of tangible assets comprises its purchase price and is inclusive of freight, duties and taxes, interest, if any, on specific borrowings utilized for financing the assets up to the date of commissioning, the cost of installation/erection and other incidental expenses.

Depreciation on tangible assets is provided on the straight line method over the useful lives of assets as prescribed under Part C of the Schedule II of the Act which is based on management assessment. Depreciation for assets purchased/ sold during a period is proportionately charged.

Advance paid for acquisition of property, plant and equipment which are not ready for their intended use at each balance sheet date are disclosed under loans and advances as capital advances.

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses if any.

Intangible assets are amortized on a straight line basis over the estimated useful economic life. All other intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset or a group of assets (cash generating unit) may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset or a group of assets. The recoverable amount is the higher of an asset's selling price less costs of disposal and value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. The impairment loss is recognized in the statement of profit and loss. If at the Balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

2.7 Inventories

Inventories consists of stock-in-trade and are valued at lower of cost and net realizable value. Cost of inventories is determined on weighted average cost basis. Cost of inventories comprises all costs of purchase, other costs incurred in bringing the inventories to their present location and condition. The comparison of cost and net realizable value is made on an item-by-item basis.

2.8 Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

Profit or loss on sale of investments is recognized in the statement of profit and loss upon disposal of the investment.

2.9 Foreign currency transactions

Transactions denominated in foreign currency are recorded using exchange rates at the date of the transaction. Foreign exchange gains and losses from settlement of these transactions are recognised in the Statement of Profit and Loss. Foreign currency

denominated monetary assets and liabilities are translated at exchange rates in effect at the balance sheet date, the gain or loss arising from such translations are recognised in the statement of profit and loss.

Non-monetary foreign currency items are carried at cost.

2.10 Leases

Where the Company is the lessee:

Leases which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are classified as finance leases.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight line basis over the lease term.

2.11 Taxation

Tax expense comprises current and deferred tax.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future, however, where there is unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed at each reporting date for appropriateness of their carrying value.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

2.12 Provisions and contingencies

A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

A disclosure for contingent liability is made when there is a possible obligation that arises from past events whose existence

will be confirmed by the occurrence or non occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.

2.13 Borrowing Cost

Borrowing costs directly attributable for acquisition of qualifying assets are capitalized as part of the asset. The other borrowing costs are charged to statement of profit and loss as and when they are incurred.

2.14 Earnings Per Share

The basic earnings per share is computed by dividing net profit attributable to the equity shareholders for the year by the weighted average number of shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises weighted average number of shares considered for deriving basic earnings per share, and also the weighted average number of shares, that could have been issued on the conversion of all dilutive potential shares, unless the results would be anti-dilutive.

2.15 Cash flow statement

Cash flow is reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.16 Cash and Cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.
